CareSearch Project Research Studies Register: Registration Proforma	0041

Study Title: Evaluation of GP webpages of the CareSearch website

Brief description of the study: One of the purposes of the CareSearch website is to produce evidence based palliative care resources for palliative care providers. A series of palliative care webpages for GPs was launched in 2007. This project will assess the uptake and use of this resource, its user friendliness acceptability and value, and identify how care may be changed through these materials.

Study Methodology: (Please mark with an x which type of study methodology)

	Epidemiology
	Health Services / Health Economics / Quality Improvement
X	**Qualitative, Observational or Descriptive**
	Mixed Method
	Systematic Review
	Intervention: RCT
	Intervention: Comparative or cohort study
	Intervention: Case series
