

## End of Life Brochures in Envelope Pack

The patients and families end of life brochures have been produced so that nurses and other health professionals can offer their patients some further information.

There are seven individual brochures dealing with important topics such as *Living with a terminal illness* and *Why information matters*.

Individual leaflets can be handed out or the set can be given out in a specially designed envelope. This is an easy way to help those looking for more information.

You can order these resources at no charge from CareSearch by filling in a Promotional Order form; contacting [caresearch@flinders.edu.au](mailto:caresearch@flinders.edu.au) or by calling the project office on (08) 7221 8233
