You can help build an understanding of evidence in palliative care. Print off the newsletter and web documents for colleagues who don't have access to the internet. Leave a copy in the tea room. Share a page or journal article on a clinical matter. Show a colleague how to search for literature.

Ordering CareSearch materials

There are a number of brochures, bookmarks and items that promote the website and its resources.

You can give these to patients and their family or to other health professionals. There is also an order form so that you can have materials posted to you. [More...](#)

Newsletter Feedback and Ideas

Please let us know if there are particular clinical scenarios you'd like us to summarise the relevant resources that are available in CareSearch. Is there something about evidence based practice you'd like us to prepare a background on? Send us your suggestions for topics. We'd also welcome comments, suggestions and ideas so please feel free to send us an email.
