Study Title: A study of the integration of health promotion principles and practice in palliative care organisations.

Brief description of the study: This study is investigating the integration of health promotion principles and practice in a community based palliative care organisation. Specifically, it is examining the impact of this change on the organisation's structures, processes and outcomes, and identifying the factors that advance or impede its integration.

Study Methodology: (Please mark with an x which type of study methodology)

	Epidemiology
	Health Services / Health Economics / Quality Improvement
	Qualitative, Observational or Descriptive
x	Mixed Method
	Systematic Review
	Intervention: RCT
	Intervention: Comparative or cohort study
	Intervention: Case series
