

CareSearch Project			
Research Studies Register: Registration Proforma		0041	
Study Title: Evaluation of GP webpages of the CareSearch website			
Brief description of the study: One of the purposes of the CareSearch website is to produce evidence based palliative care resources for palliative care providers. A series of palliative care webpages for GPs was launched in 2007. This project will assess the uptake and use of this resource, its user friendliness acceptability and value, and identify how care may be changed through these materials.			
Study Methodology: (Please mark with an x which type of study methodology)			
	Epidemiology		
	Health Services / Health Economics / Quality Improvement		
X	Qualitative, Observational or Descriptive		
	Mixed Method		
	Systematic Review		
	Intervention: RCT		
	Intervention: Comparative or cohort study		
	Intervention: Case series
