Study Title: Evaluating novel methods for delivering non-pharmacological interventions for dyspnoea in patients with lung cancer					
Brief description of the study: To evaluate non-pharmacological management of dyspnoea					
Study Methodology: (Please mark with an x which type of study methodology)					
	Epidemiology				
	Health Services / Health Economics / Quality Improvement				
	Qualitative, Observational or Descriptive				
	Mixed Method				
	Systematic Review				
X	Intervention: RCT				
	Intervention: Comparative or cohort study				
	Intervention: Case series				
Project details:					
Funding source (Optional): NHMRC					
Has the study received ethics approval?	X	Yes		No	Not applicable
Project starting date: .././2007					
Project completion date: .././2009					
Multi site:	X	Yes		No	Not applicable
