# Residential Aged Care End of Life Care Pathway (RAC EoLCP)

Facility: .....

(Affix identification label here)

URN:

Family name:

Given name(s):

Address:

Date of birth:

Sex:  M  F  I

Medicare No.:

*The Brisbane South Palliative Care Collaborative (BSPCC) RAC EoLCP™ was developed as part of a project funded by the Department of Health and Ageing. The RAC EoLCP is adapted from the Liverpool Care Pathway © (Royal Liverpool and Broadgreen University Hospitals NHS Trust and Marie Curie Cancer Care, operated under MCPIL 2010) and the NSW Central Coast Collaborative Pathway.*

This End of Life Care Pathway (EoLCP) document is a consensus based, best practice guide to providing care for residents in Residential Aged Care Facilities (RACFs) during the last days of their lives. The entire document is to be placed in the resident's notes and forms part of their medical record.

To commence the pathway, authorisation should be obtained from the resident's General Practitioner (GP). If the GP cannot be contacted, interim authorisation can be obtained from one of the following: Palliative Care Medical Officer (PCMO), Palliative Care Nurse Specialist (PCNS) or Senior RACF Registered Nurse (RN). Authorisation can be verbal but needs to be confirmed in writing, by completing Section 1, within 48 hours.

## Instructions for Completing the Pathway

### Section 1: Commencing a Resident on the Pathway

Medical Officer to be consulted and documentation can be completed by any of the following: GP, PCMO, PCNS, RN

### Section 2: Medical Interventions and Advance Care Planning

Medical Officer to be consulted and documentation can be completed by any of the following: GP, PCMO, PCNS, RN

### Section 3: Care Staff Interventions

#### Part A - Care Management

To be completed by RN or Enrolled Nurse (EN)

#### Part B - Comfort Care Chart

To be completed by attending Nursing and Care Staff  
A new chart is to be commenced daily

#### Part C - Further Care Action Sheet

Nursing and Care Staff are to document any further actions taken to improve comfort care

### Section 4: Multidisciplinary Communication Sheet

All members of the multidisciplinary team can document here

### Section 5: After Death Care

To be completed upon death of a resident by the attending nurse

**Note:** *Dependent upon individual RACF practices, it may be preferred to use existing facility documentation tools to record Sections 4 and 5.*

URN:

Family name:

Given name(s):

Address:

Date of birth:

Medicare No.:

Sex:  M  F  I

**Section 1: Commencing a Resident on the Pathway**

The signs and symptoms listed below are considered to indicate that the terminal phase of life is imminent. ('Guidelines for a Palliative Approach in Residential Aged Care' Australian Government Department of Health and Ageing [2006])

It is appropriate to **start the pathway if three or more of these signs and symptoms** are applicable to the resident. The final decision to commence the pathway is a clinical one, supported by the views of the GP, multidisciplinary team and, if possible, the resident and/or their representative.

Please note, in some cases residents may be commenced on the pathway and then taken off the pathway if their condition improves.

Signs and symptoms associated with the terminal phase	Yes	No
Experiencing rapid day to day deterioration that is not reversible		
Requiring more frequent interventions		
Becoming semi-conscious, with lapses into unconsciousness		
Increasing loss of ability to swallow		
Refusing or unable to take food, fluids or oral medications		
Irreversible weight loss		
An acute event has occurred, requiring revision of treatment goals		
Profound weakness		
Changes in breathing patterns		

**Agreement to commence on pathway**
