

CareSearch Resources Support Allied Health Professionals

Many different disciplines and professional groups contribute to palliative care individually and as part of multidisciplinary care teams. **Allied health is essential to palliative care.**

CareSearch offers a section specifically for Allied Health professionals to support them in providing sensitive, evidence-based end-of-life care for their clients, ensuring the best quality of life until death.

All content pages in the Allied Health section have been reviewed by allied health professionals.

The content covers:

- Clinical Considerations
- Interdisciplinary Teams
- Professional Considerations
- Evidence, Quality, Research
- Clinical and Education Resources
- Working with Patients, Carers and Families

The resources are free to use and regularly updated. Find out more by visiting:

www.caresearch.com.au/alliedhealth

CareSearch is funded by the Australian Government Department of Health.
