

Fundamentals of Paediatric Palliative Care for Allied Health

Supporting children with life-limiting conditions and their families

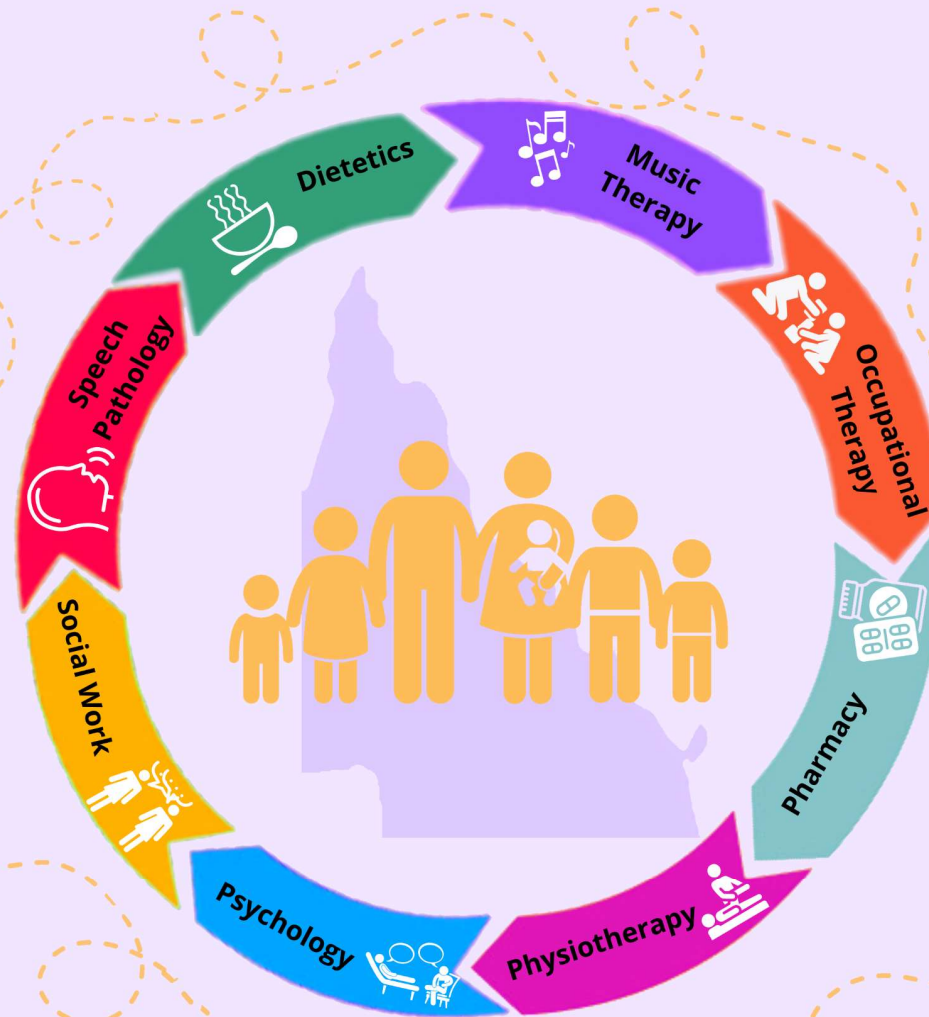

Are you an allied health professional who supports children with life-limiting conditions?

Do you work in regional or remote Queensland? Or have you had limited exposure to PPC in general?

With F-PPC for AH, learn about the **PPC philosophy of care** ... more than just a service!

This e-Learning package includes:

- an introduction to PPC for allied health professionals
- 8 profession-specific modules outlining allied health roles across the different phases of palliative care
- case studies & resources

Free & open access via the QUT Palliative Care Education and Training Collaborative Learning Management System

The Paediatric Palliative Care Hub
