### Study Title:
The Role of Speech-Language Pathologists in Palliative Care: Exploring the Issues and Reaching Consensus

### Brief description of the study:
This study is using a 2-3 stage Delphi methodology to explore current SLP practice, issues and opportunities, to develop consensus statements that begin to empirically define the role of SLPs in palliative care.

### Study Methodology:
(Please mark with an x which type of study methodology)

- Epidemiology
- Health Services / Health Economics / Quality Improvement **X**
- Qualitative, Observational or Descriptive
- Mixed Method
- Systematic Review
- Intervention: RCT
- Intervention: Comparative or cohort study
- Intervention: Case series
