CareSearch Project Research Studies Register: Registration Proforma	0137

Study Title: A structured Approach to Evidence Based Quality Improvement for Palliative Care

Brief description of the study: A project between CareSearch, NSAP and PCOC to develop an aligned approach to communicating and supporting change management in the palliative care sector. This was facilitated via a series of workshops around the country to promote the 'Working Together Change Framework'. The workshops and subsequent follow up surveys were used to evaluate the usefulness of this approach and of the long-term benefits to practice.

Study Methodology: (Please mark with an x which type of study methodology)

	Epidemiology
X	Health Services / Health Economics / Quality Improvement
	Qualitative, Observational or Descriptive
	Mixed Method
	Systematic Review
	Intervention: RCT
	Intervention: Comparative or cohort study
	Intervention: Case series

Project details:

Funding source (Optional): All projects contributed to costs within current funding

Has the study received ethics approval?	**X**	Yes		No		Not applicable

Project starting date: **15/ 08 /2012**

Project completion date: **30/06/ 2013**

Multi site:	**X**	Yes		No		Not applicable
