Study Title: How do clinicians learn about Knowledge Translation? Examining the online learning opportunities

Brief description of the study: The main objective of this investigation is to identify free online learning resources on Knowledge Translation, with a particular focus on those targeted at health professionals. Findings will subsequently inform the development of an online KT learning module for postgraduate students, researchers, and health professionals as part of the NHMRC-funded Centre for Research Excellence in End of Life Care project.

Study Methodology: (Please mark with an x which type of study methodology)

	Epidemiology
	Health Services / Health Economics / Quality Improvement
	Qualitative, Observational or Descriptive
	Mixed Method
X	Systematic Review
	Intervention: RCT
	Intervention: Comparative or cohort study
	Intervention: Case series

Project details:

Funding source (Optional): Centre for Research Excellence in End of Life Care
